- 3 hours de-brief meetings and reflection on practice.
- Completion of a Personal Development Plan with with a PPC/SMP.

About Us

Community Accord is a leading provider of mediation and mediation training in the UK. We work extensively within the neighbourhood, SEND, workplace and social care sectors.

We deliver a variety of mediation and conflict resolution trainings to a wide range of audiences, such as NHS trusts and charities. This featured course is a 2 day Specialist Training in SEND, which places an emphasis on learning through a balance of theory, demonstrations and practical exercises.

The course was amazing and life changing for me because I now know what I want to do in the future. This was intense, detailed and at the same time life-changing course.

Every day I attended the course I felt I learnt something new and it was a challenge at the start due to the intensity but was a great course that challenged us as individuals and the examples given in the course were based around real life examples which was so interesting and I feel like a different person with so much energy and enthusiasm and want to progress further into the field of mediation.

I have attended lots of courses and I have to say the mediation course at Community Accord is by far the best and was tailored to suit my needs and expectations.

Thanks for delivering a truly amazing course and I'm amazed at what I have learnt throughout the course and I would recommend it to everyone who wants to go into the field of mediation...

I would like to say a big thank you to Patricia and Tarun at Community Accord for this positive experience and for putting up with me lol xx

Hi,

Thanks so much for this.

The course was excellent. We were a really small group which meant we got personalized teaching and highly tailored feedback in a friendly welcoming environment. The practical exercises were rigorous but ultimately great opportunities to learn. I would recommend it.

'Community Accord's training was invaluable. As a team we had been going through a challenging time under public sector restructuring. For the first time in months it brought us together as a team'.

'Their staff were very approachable and personable, and the course had an excellent balance between theoretical learning and practice. The training has been of lasting benefit'

'Excellent. It has been a great way of helping me develop confidence in my own ability'

'I've been able to learn new skills as well as build on skills I already have'

'This course has equipped me with the right tools. I feel more confident in approaching a mediation situation. I know the process and know how to use it'.

Excellent introduction to mediation skills training. The course had a good balance of theory and practice; it was challenging but we were able to practice and learn in a very supportive environment. The course has confirmed my interest in the field of mediation. Thank you, Patricia and Tarun, for making the course such a positive learning experience. One of the best courses I have undertaken.
